

Garden Fresh Pure Natural Guava Pulp

Extracted From Premium Quality Hand Picked Guava Fruit

The SSMP natural Guava pulp is extracted by commercial processing of properly matured and ripened Guava fruits from the winter harvest and produced in accordance with good manufacturing processes (GMP). Due care is taken to retain the original sweet taste of the fruit. Guava pulp is used mainly for conversion into juices, nectar, drinks, jams, jellies, fruit cheese and fruit bars. Guava juice is an excellent nutritious beverage and natural source of Vitamin C, minerals such as iron, calcium and phosphorus.. It is frequently used to flavor ice-creams, puddings and yoghurts. It has good potential as a commercial source of pectin. While processing, we take care to retain its ayurvedic benefits to one's health.

ANALYTICAL DATA

T.S.S	9 Deg Brix Minimum	Packing	6 number A-10 OTS Cans
Acidity (As Citric Acid)	0.30% - 0.55%		6 Cans x 3.1 Kg. per carton
Vacuum	Negative Pressure		215 Kg. Nett in Aseptic bag
Flavour	Natural Flavour	1x20' Container	Kept in MS drums
Colour	Creamish White & Pink	Capacity	1000 cartons of A-10 OTS Cans
Physical Appearance	Natural colour pulp passed through 1/48" mesh sieve size		80 drums of Aseptic bag
Additives	Nil		
Microbiology	Exempt from micro-organisms Salmonella Negative Mould count <1% by Howard Mould Count
