

## CASTOR SUGAR

We are Suppliers and exporter of castor sugar. Castor sugar can be used with tea or hot chocolate depending on the user's choice. This finely granulated sugar is too good and quick to melt. It is widely accepted by the bakers as used in the making of sponge cakes, and biscuits. We take special care in packaging of the food products so that they can be preserved for a long time.

### Superior Quality

Quality for us is not a mere formality, it is a mission and is always upheld under all circumstances. We comply with all the requisite industry standards and norms, and are currently in the process of acquiring the ISO certification.

Taj agro Products Ltd. has a well equipped in-house quality examination centre, where talented quality personnel attend to every single process of production. While monitoring, they make sure that all quality measures are stringently followed at all the levels of production.

It is white and very fine Sugar Crystal. It is free from moisture and almost bacteria free. It melts easily and has a longer shelf life. Being completely soluble, MB Double Refined Castor Sugar is ideal for Cakes, Biscuits, Cookies and other desserts

### Sources of Sugar

Generally, sugar is produced from plants like sugarcane and sugar beet. The sugarcane plant is very thick with long grasses. A perennial crop, it is grown in the various tropical and subtropical areas. The stalks of the sugarcane is the exact location, from where the sweet sap is extracted. Sugar beet has the highest sugar content from among the beetroot family and this variety is specifically cultivated for high quality sugar production. In addition, sugar is produced from sweet sorghum, maple, honey, corn sugar, etc. Of a 180 countries of the world, around a 100 of them make sugar from the sugar beet and cane.

Note :- Rate of the products Mention in the Website will be verified by day to day fluctuation in the Indian Agro Market Actual Rate of the Products will be provide at the time of final Confirmation of Order

Sugar is generally derived from the liquid of the sugar cane or sugar beet. It is not as sweet as the refined sugar. Molasses is one of the resulting byproducts of refining sugar and is much more nutritional than the table sugar. High in carbohydrates, it provides energy to the body. As part of simple carbohydrate, sugars include the monosaccharides, trisaccharides and oligosaccharides. Monosaccharides includes fructose and galactose. Disaccharides is usually available as sucrose, lactose, and maltose.

Raw sugars consist of varying shades of yellow to brown sugars and is processed by boiling till it solidifies. From sugar beet juice, the raw beet sugars are extracted and are then used to fabricate white sugar. Raw sugars include demerera, muscovada and turbinado. These are available in crystalline and loaf forms, where the moulds are then allowed to dry up and the resulting product is called jaggery or gur. Raw sugar is not so popular in South America. Mill white sugar is produced by exposing the sugar to sulfur dioxide but it retains the coloured impurities.

### Quality Assurance

Quality is of utmost importance to us and is more than just a dream---It is a mission. We continually strive for total quality, thereby giving no reason for the customers to complain. The entire production process, right from the sowing of seeds, harvesting, processing, to packaging is carried out under the strict supervision of our quality inspectors. This ensures that only the best reaches our clients, always. International standards are upheld at all stages, leaving no loopholes.

### Product Features

Case of two 3-pound jars of gourmet sugar (total of 6 pounds)

India Tree Caster (or Superfine) Sugar is the best sugar for cakes, cookies, meringues, custards and mousses

Quick to dissolve in hot or cold beverages, India Tree Caster Sugar is ideal for winter and summer drinks

Because it dissolves quickly, it is perfect for iced drinks; it is the best sugar for sorbets and is heavenly over fresh fruit

Dissolving almost instantly, the fine grain of India Tree Caster Sugar is specially formulated for the baking trade
