

Dhania powder (Coriander powder)

Coriander, also known as Cilantro is a herb with a fresh, sweet aroma. The Coriander powder also known as Dhania powder is an essential item in the Indian household. It is used as a flavoring agent in dals and curries. It imparts the dish with its unique aroma of freshness. Coriander seeds are dried up, ground into a powder form after which they are stored in dry packets.

Coriander powder is used at the beginning of the preparation of a dish, whereas, Coriander leaves are usually sprinkled as garnish or finishing on top of prepared dishes.

Tajagro coriander is coarse ground obtained by grinding top quality coriander seeds procured from best of locations in India. It is an important spices crop having prime position in flavouring food. Tajagro coriander powder can be used in preparation of curry powders, sausages and seasonings. And is an important ingredient in the manufacture of food flavourings, in bakery products, meat products, soda & syrups, puddings, candy preserves and liquors.
